

The Holding Discipline™

Deployable Assets, Rights Architecture,
and Certification Matrix

Comprehensive System Blueprint

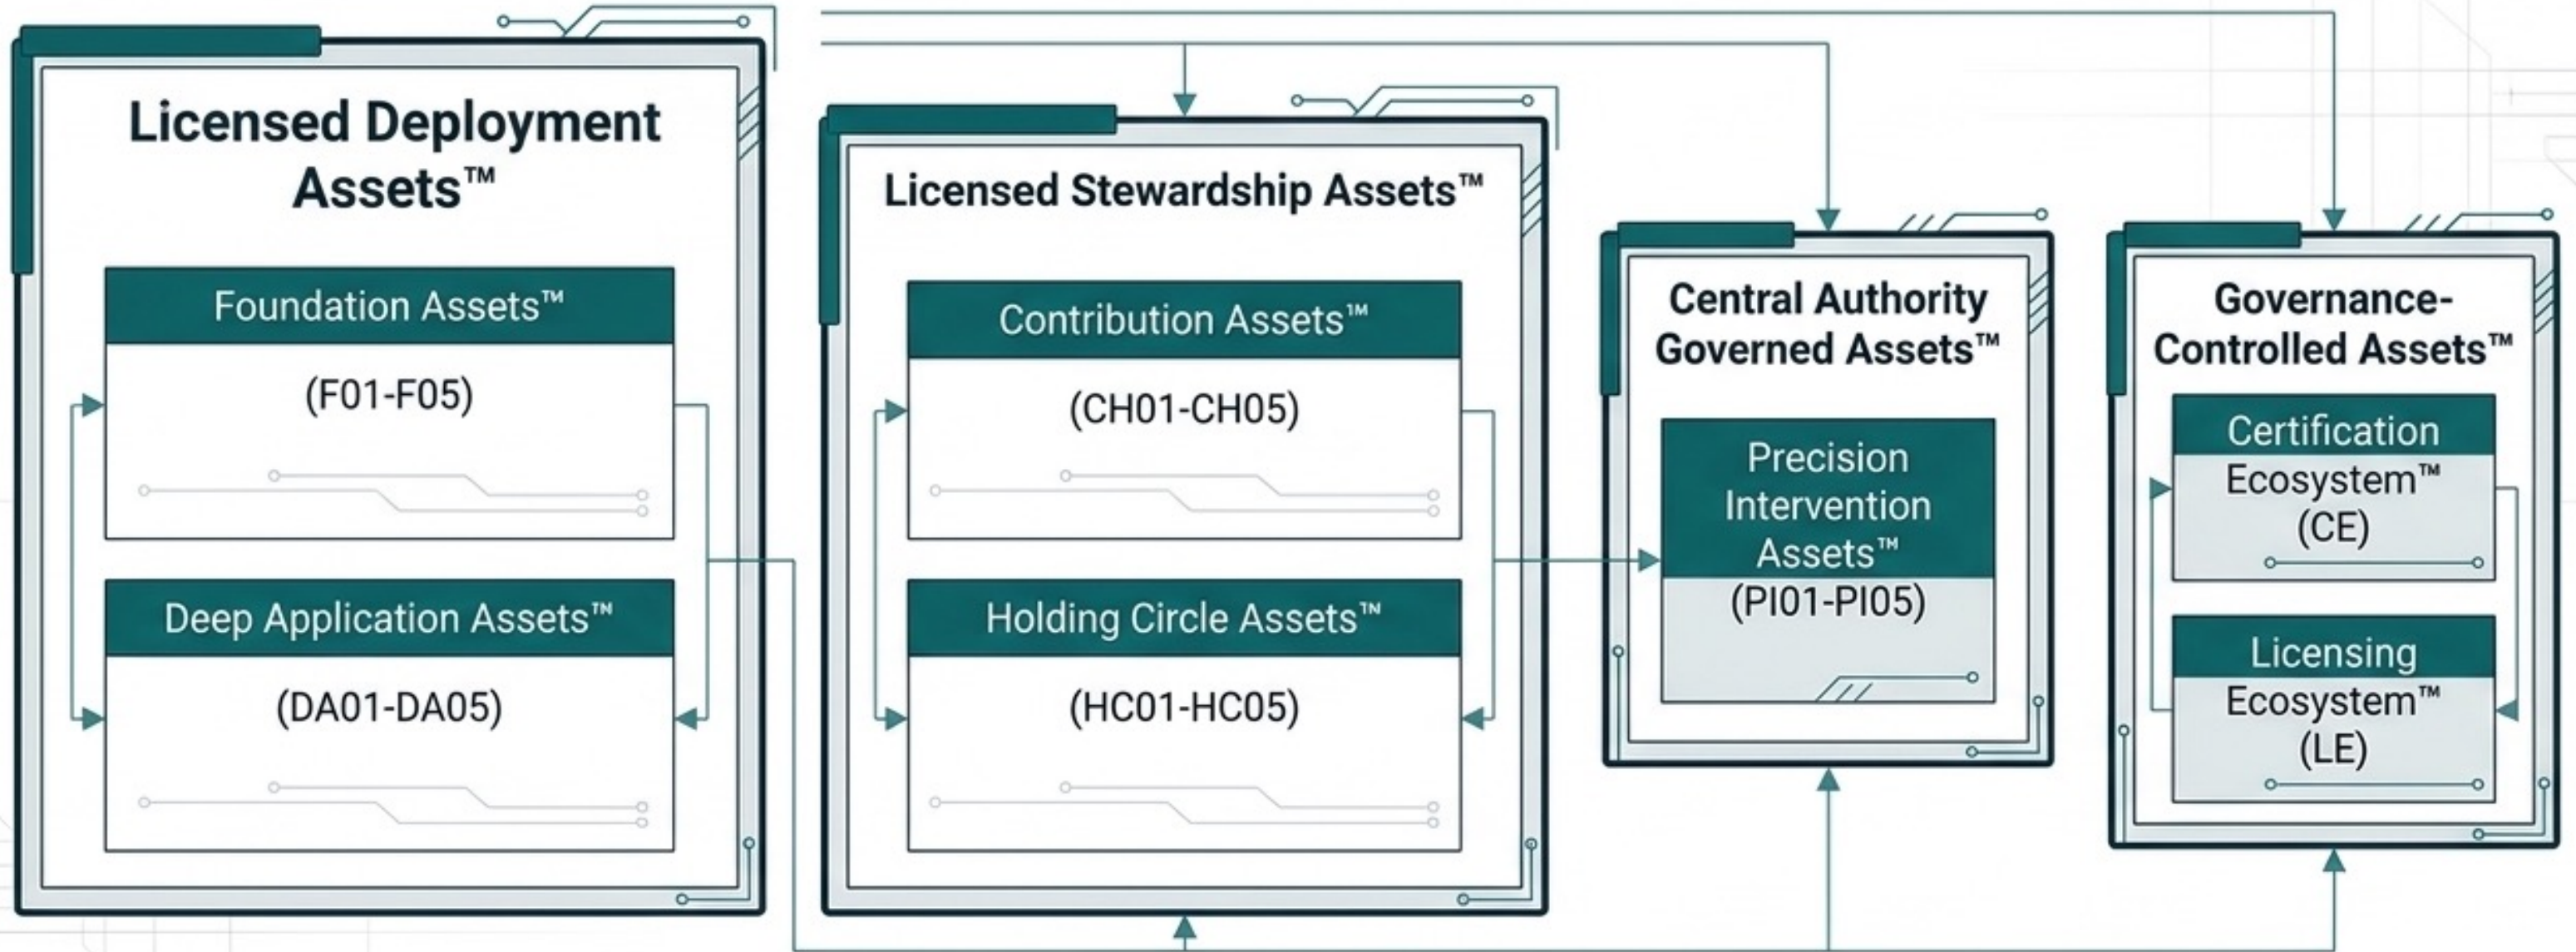

Three Interlocking Ecosystems Govern the Discipline

Part 1: The Deployable Assets™ Ecosystem

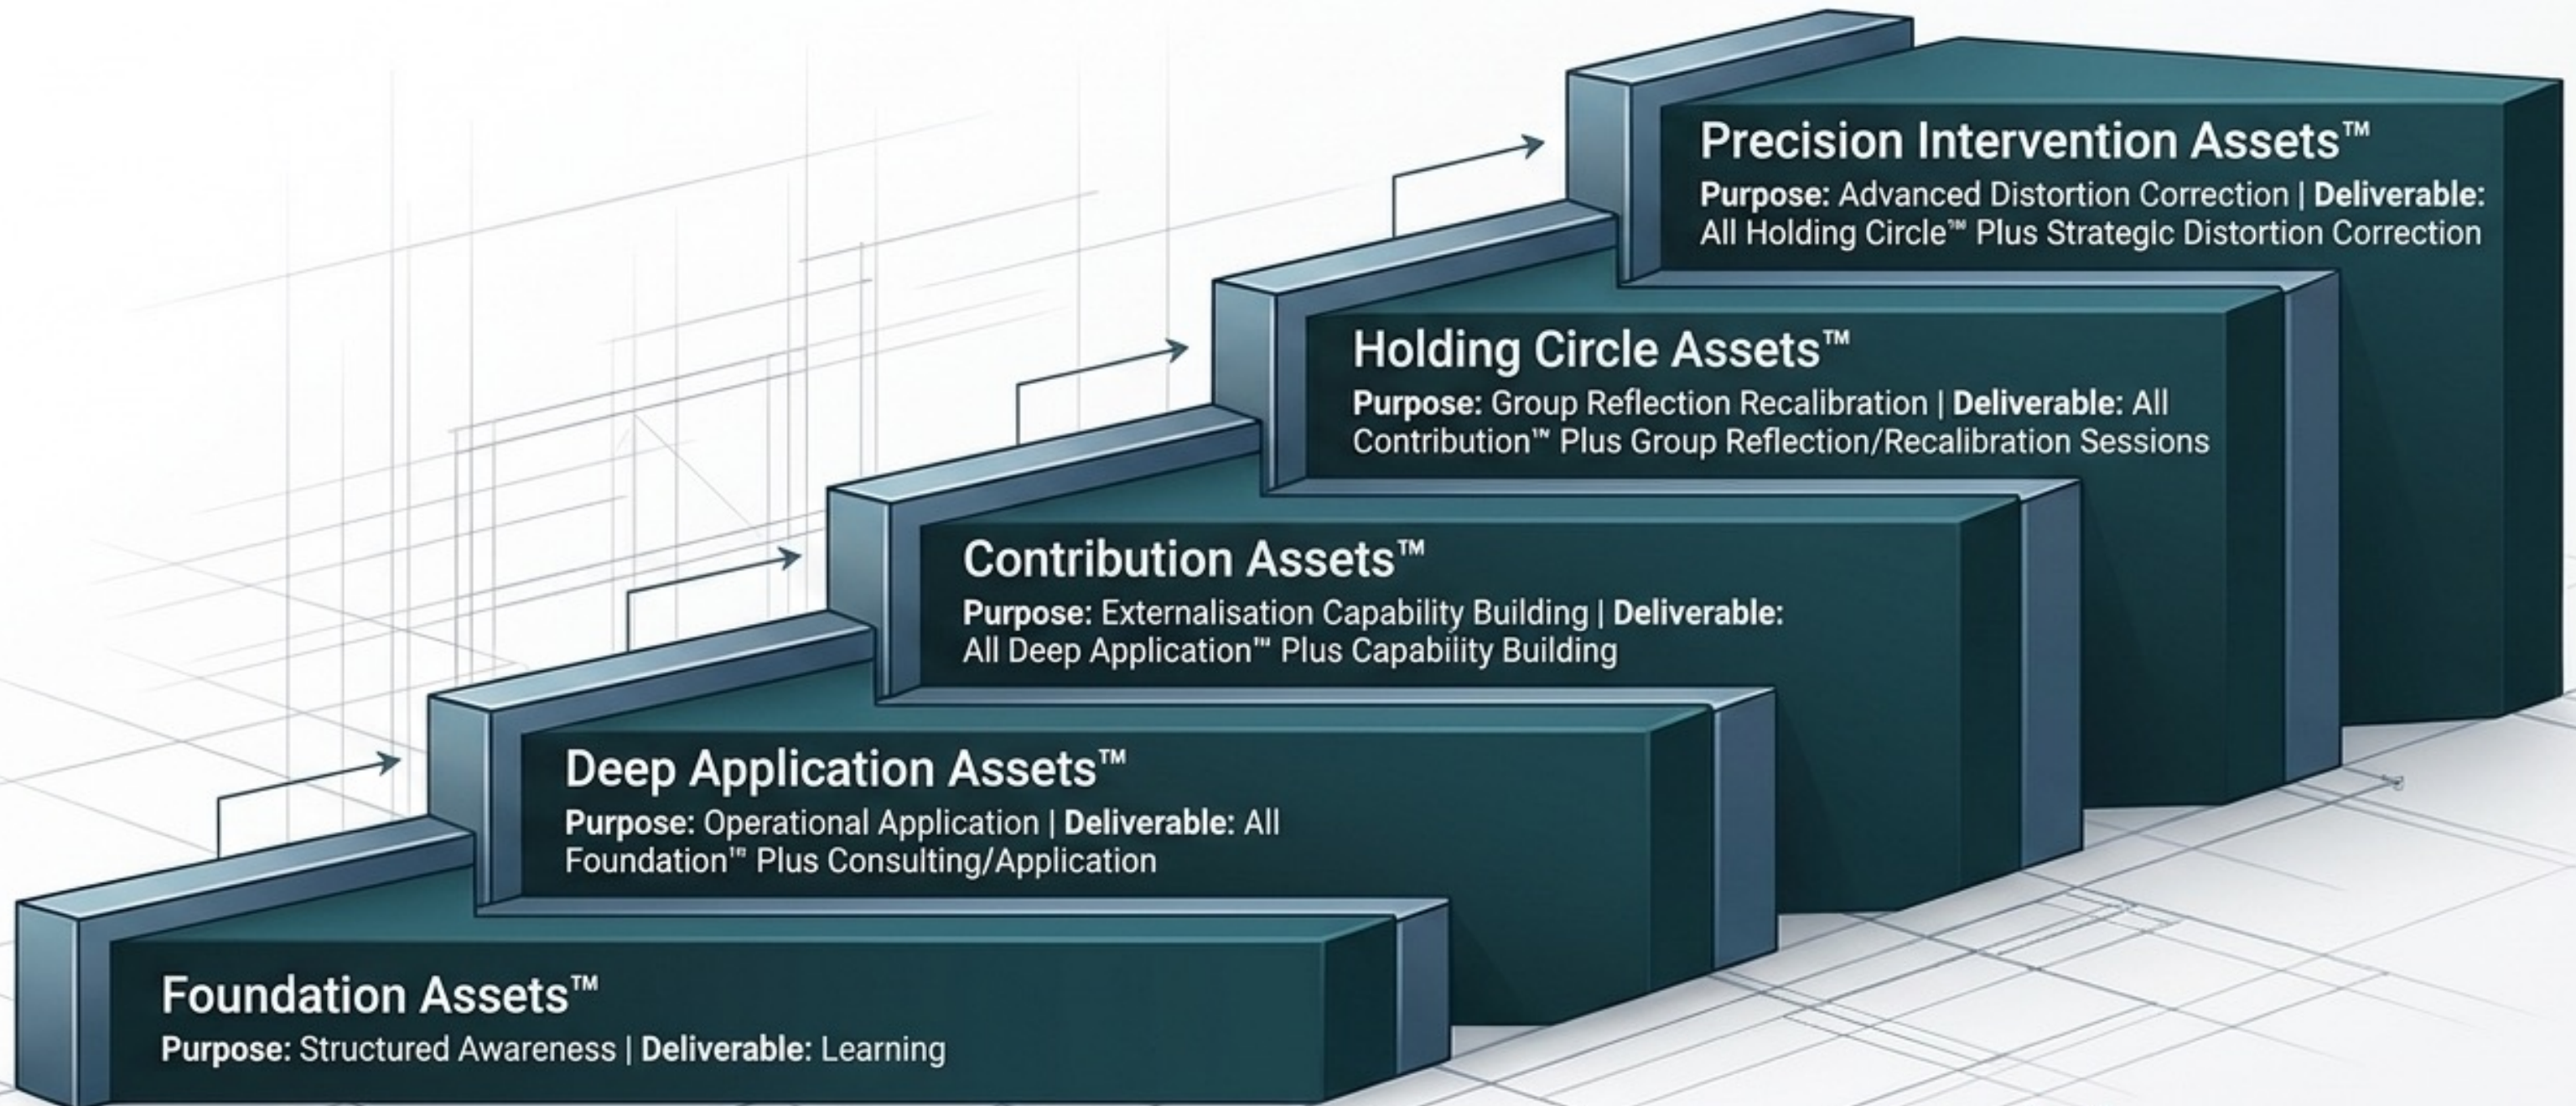

Establishing the foundational toolkits, their designated purposes, and universal usage boundaries.

A Taxonomy of 27 Governed Assets Across Four Domains

System Note: Core practice domains are built on a 5-module modular structure.

Asset Deliverables Escalate from Awareness to Advanced Correction

Usage Rights Contract Sharply for High-Intervention Assets

	Individual Use	Group Use	Organization Use	Commercial Use
Foundation	✓	✓	✓	✓
Deep Application	✓	✓	✓	✓
Contribution	✓	✓	✓	✓
Holding Circle	✓	✓	✓	✓
Precision Intervention	✗	✗	✗	✗
Governance	✗	✗	✗	✗

Exception: Precision Intervention allows for “Controlled Assignment Rights™” under specific commercial governance.

Part 2: Deployable Rights Architecture™

The packaging, authorization rules, and **licensing tiers** that unlock the asset ecosystem.

The 5 Pillars of the Asset Authorisation Principle™

1. Deployment Limits

Licensing authorises deployment exclusively within defined standards and boundaries.

2. No Ownership Transfer

Licensing grants specific use rights; it does not transfer asset ownership.

3. Dual Prerequisites

A valid certification AND a valid license are essential conditions for exercising rights.

4. Central Authority

Governance-controlled assets are deployed solely through approved assignment arrangements.

5. Revocation Rights

The Holding Discipline™ reserves the right to suspend, restrict, or withdraw rights if quality requirements are not maintained.

Four License Tiers Dictate Asset Scale

License Category 01™ | Licensed Holding Practitioner™ | Asset Package: LC01

Total Assets: 2

License Category 02™ | Licensed Holding Coach™ | Asset Package: LC02

Total Assets: 4

The transition from LC02 to LC03 represents a step-function upgrade, more than doubling total accessible assets.

License Category 03™ | Licensed Holding System Professional™ | Asset Package: LC03

Total Assets: 10

License Category 04™ | Licensed Master Holding Practitioner™ | Asset Package: LC04

Total Assets: 25

The Deployment Key: Mapping Licenses to Eligible Assets

License Category	Description	Asset Eligibility Meters (Filled = Unlocked)			
LC01	Unlocks Any 1 Foundation + Any 1 Deep Application. (Stewardship/Precision locked).	Foundation Assets™ 	Deep Application Assets™ 	Contribution Assets™ 	Holding Circle Assets™
LC02	Unlocks Any 2 Foundation + Any 2 Deep Application. (Stewardship/Precision locked).	Foundation Assets™ 	Deep Application Assets™ 	Contribution Assets™ 	Holding Circle Assets™
LC03	Unlocks All 5 Foundation + All 5 Deep Application. (Stewardship/Precision locked).	Foundation Assets™ 	Deep Application Assets™ 	Contribution Assets™ 	Holding Circle Assets™
LC04	Unlocks All 5 Foundation & Deep App + Full Contribution + Full Holding Circle + Controlled Assignment Rights™ for Precision Intervention.	Foundation Assets™ 	Deep Application Assets™ 	Contribution Assets™ 	Holding Circle Assets™
